Advanced GLP

Advanced Analytical Australia is an independent OECD GLP (Principles of Good Laboratory Practice) recognised contract laboratory specialising in the analysis of veterinary and agrichemical residues and ecotoxicological testing in animal, crop, water and soil samples for registration by various national and international regulators including Australia (APVMA - Australian Pesticides and Veterinary Medicines Authority), New Zealand (ACVM - Agricultural Compounds and Veterinary Medicines) and EU (EMA - European Medicines Agency).

Analytical capabilities and instrumentation which may be of use to you:

Residues

Anthelmintics, Pesticide screens (including OCs, OPs, SPs, fungicides, herbicides, carbamates and dithiocarbamates), Trace elements; Oxytetracycline and other antibiotics including fluoroquinolones, macrolides, sulphonamides, tetracyclines and beta-lactams, Restricted Animal Material (Ruminant contamination); GMOs

in Samples of

Animal tissues, plasma, milk, crops, fruits and vegetables, stock feed, soil and water

Technology

UPLCMSMS, LCMSMS, GCMSMS, P&T GCMS, GCMS, HPLC, ICPMS, ICPOES, CVAAS & Real Time PCR

- ✓ Independent contract laboratory
- ✓ Chemical, Microbiological and Bio-analytical testing
- ✓ ISO/IEC 17025 Accredited & OECD GLP Recognised by NATA
- ✓ Modern and emerging technologies
- ✓ Experienced staff
- ✓ Reliable customer service

Accreditation No.15109

ISO/IEC 17025:2005 accredited and OECD GLP (Principles of Good Laboratory Practice) recognised laboratory
